

FiT In™ - Personality Assessment for Professionals

Optimize job-fit and people development in your organization!

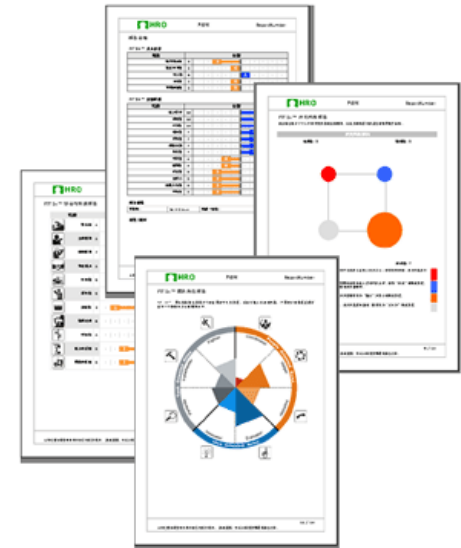

FiT In™ is a modern behavior assessment tool with the latest development concepts for today's Businesses & Organizations.

Features:

- ✓ Based on the Big Five model, which is the most valid and widely accepted personality framework since the 1990's
- ✓ Measures 26 work related competencies like Confidence, Assertiveness, Activity, Cooperation, Competitiveness, Dutifulness, Creativity and Empathy to name just a few
- ✓ Fundamentally different from the traditional "High score=Good result" type of questionnaires
- ✓ Motivates for continuous development instead of labelling people
- ✓ Based on an International Item Pool and developed by a multi-cultural team; it is strong in "cross-cultural" deployment

Fields of use:

- ✓ Recruitment and selection
- ✓ Training and coaching
- ✓ Team audit and organizational development

FiT In™ Reports:

- ☑ FiT In™ Personality Profile
- ☑ Job-Fit Report
- ☑ Interview Guide
- ☑ Development Suggestions
- ☑ Leadership Potential and Style
- ☑ Conflict Style
- ☑ Team Role Report
- ☑ Business Attributes Report
- ☑ Group Reports for Team Audit

You probably already know why you need an advanced behaviour assessment tool...

You are welcome to contact us for a free online demonstration.

FiT In™ was developed, tested, refined and validated over an eight year period. 2008 has seen significant improvements take place to provide, what we believe, to be the most practical and purpose-built psychometric tool for your business/organisational use today.

Enhance each stage of your HR practices with FiT In™ - **make a big step towards optimizing the human factor in your organization.**
